

# SAVE THE DATE!

The Sixth Annual Simulation Conference

## Bridging the Borders: Institutional & Interdisciplinary Collaboration

Thursday, April 12 • 7am-5pm  
Tulsa Tech - Health Sciences Center  
3350 S. Memorial Drive • Tulsa, OK 74145

Presented By...

### Who's invited?

Allied health professionals, pre-hospital responders, physicians, nurses, emergency management personnel, simulation technicians/specialists and health care educators are invited to attend this exciting simulation conference.

...and don't forget about the post conference on April 13. Limited to 50 people!

The post-conference will provide an opportunity for you to practice what you learned and participate in an exclusive, hands-on session involving pre-briefs, interactive scenarios and debrief simulation experiences with a trained facilitator.

### Learn about these objectives...

- Understand and apply the concept of simulation training collaboration in employment settings.
- Identify barriers within and outside hospitals and academic environments that may impede collaboration for simulation training.
- Identify other area institutions using simulation and how to collaborate together in training.
- Discuss resources and methods that facilitate the implementation and utilization of simulation on a limited budget.
- Discuss ways simulation could be utilized from initial education to experienced health care providers to maximize teamwork and patient safety.
- Participate in hands-on simulation experience that demonstrates collaboration.
